

Silvia Marri

ABOUT MYSELF

Knowledgeable biologist with experience in the fields of pharmacology and infectious diseases. Competence of scientific tools and instruments for data collection. I am flexible and able to change. I work well in teams as well as in new situations and can adapt rapidly.

WORK EXPERIENCE

[01/01/2022 – Current]

PhD Student

Department of Neuroscience, Psychology, Drug Research and Child Health, Section of Pharmacology

City: Florence | **Country:** Italy

PhD Student in DRUG RESEARCH AND INNOVATIVE TREATMENTS (Cycle XXXVII)
(Supervisor: Prof. Carla Ghelardini)

1. Participation in research projects on the role of histaminergic system in inflammation.
2. Participation and performing the experimental part in a project on the role of hybrid compounds in glaucoma and retina protection in a rabbit model.
3. Participation in research projects concerning the IOP transient and chronic models in rabbits.

[22/06/2023 – 22/12/2023]

Visiting scientist

Vrije Universiteit (VU), Faculty of Science, Chemistry and Pharmaceutical Sciences

City: Amsterdam | **Country:** Netherlands

During my PhD I carried out a six-month research period abroad at Prof. Rob Leurs' Lab, Faculty of Science, Chemistry and Pharmaceutical Sciences, Vrije Universiteit (VU), Amsterdam. I was entrusted with a short research project. I studied G-protein coupled receptors (GPCRs). I was particularly involved in the study of the signalling of the β_2 adrenergic receptor, using an EPAC FRET biosensor. In addition, I characterised ligand binding at the chemokine scavenging receptor GPR182.

[01/11/2022 – 30/04/2023]

Visiting PhD student

Nicox Research Institute - International Ophthalmology Company

Address: Via Ludovico Ariosto, 21, Bresso (MI), 20091, Milan, Italy

The role entails conducting research, development and testing activities with the objective of developing and launching pharmaceutical or para-pharmaceutical products onto the market.

[01/02/2018 – 31/12/2021]

Research Fellowship

**Department of Experimental-Clinical Medicine Center for Systemic
Manifestations of Hepatitis Viruses**

City: Florence | **Country:** Italy

1. Participation in the project "Prevalence survey of HBV and HCV in a social distress setting and inclusion of chronically infected individuals in treatment/care pathways."
2. Performing the experimental part (analysis of microRNAs involved in HCV-related malignancies) of the research project "Addressing residual challenges of HCV infection in the era of Direct Acting Antiviral (DAAs) therapies: co-morbidities, gender differences, universal access. Translation of clinical findings from large national cohorts into health care strategies."
3. Participation (performing molecular biology experiments) in a collaborative project entitled "Analysis of Bcell clonality in HCV-positive patients with cryoglobulinemic vasculitis and persistence of symptomatology after anti-HCV treatment with DAA."
4. Participation in the ASDVax project, referee Prof. Clodoveo Ferri: national project involving about 30 centers recruiting patients with rheumatologic disease who underwent anti-SARS-Cov-2 vaccination to study efficacy of vaccination in conjunction with immunosuppressive therapies, side effects, disease reactivation, and antibody titer trends; role in the project: collection and preparation of samples for antibody assays and compilation of the data registration database of study participants
5. Participation in the collaborative study with the group of Prof. Massimo Fiorilli and Dr. Marcella Visentini, University la Sapienza of Rome: anti-SARS-CoV-2 vaccination in patients with cryoglobulinemic vasculitis, efficacy, disease reactivation and clonal analysis of pathogenic B lymphocytes (Visentini M., Gragnani L. et al.).

**EDUCATION AND TRAIN-
ING**

[2024] **Biologist-Admitted to practice**

Ordine dei Biologi della Toscana e dell'Umbria [https://

Country: Italy |

Certificate course for the use of laboratory animals (lagomorphs, rats and mice) - Theory and practice part

[11/2022 - 02/2024]

*EXPERIMENTAL ZOOPROPHYLACTIC INSTITUTE OF Lombardy and Emilia-Romagna
and University of Florence* <https://www.izsler.it/>

Country: Italy | | **Final grade:** Certificate course for the use of laboratory animals (lagomorphs, rats and mice)

Course accredited by the Italian Ministry of Health – General Directorate of Animal Health and Veterinary Medicines (authorized on date 15/03/2023).

Modules: Laboratory animal biology and management, (modules 3.1, 4, 5, 6.1, 7. MD 5 August 2021) rodents and lagomorphs.

Ethics and project design, modules 9, 10, 11, MD 5 August 2021.

National legislation and ethics level 1, modules 1 and 2, dm 5 august 2021.

Training and internship provided by CeSAL – Dept. of NEUROFARBA, University of Florence:

Modules: 3.2: basic and appropriate species-specific biology–practice (rabbits, mice and rats).

6.2: humane methods of sacrifice–practice (rabbits, mice and rats).

8: minimally invasive procedures without anesthesia species-specific-practice (rabbits, mice and rats)

specific health and safety training courses - Chemical and carcinogenic risks, biological risks, equipment, risks common to all tasks.
